

Memorandum

Date . 7 December 1981

From CID Coordinator
Task Force on Kaposi Sarcoma (KS) and Opportunistic Infections (OI)

Subject Laboratory Data Presentation

To See Distribution List

A meeting has been scheduled for Friday, 11 December, at 11:00 a.m., Building 6, Room 165, to further discuss laboratory aspects of the KS-OI investigation. Dr. Ci Cabradilla, Viral Diseases Division (VDD), CID, will discuss retroviruses, reverse transcriptase, oncogenes, and implications for human malignancy. Dr. Paul Feorino, VDD, CID, will discuss human malignancies thought to be associated with DNA viruses, and will present data on EBV serology for case and control patients in the KS-OI investigation.

David M. Morens, M.D.
